MOVITEC
PALLET WRAPPING TECHNOLOGY

we dare to try anything

- + **HIGH CAPACITY:** up to 120 pallets/hour
- + Maximum quality, high performance and minimum maintenance
- + It is the most versatile: it can evolve to a Saturn S8 model to get higher capacities
- + The load remains static: the film reels rotate around the load
- + Guaranteed savings of stretch film: 300% film pre-stretching
- + 1 m of film becomes 4 m
- + Finishing without tails of film thanks to our efficient cut and welding device
- + Electronic and self-adjusting tension control depending on the profile of the load
- + Possibility of applying efficient dustproof and rainproof wrappings
- + Possibility of wrapping at ground level
- + Capable of applying bands (strips) at any height of the load
