2905 Strapping Machine

Horizontal automatic with corner placer

Automatic machine for strapping pallets horizontally with corner pieces placement.

- Fast, reliable and quality strapping.
- Easy to program thanks to its new touch panel.
- Can store up to 50 different strapping programs.
- Allows strapping up to 20 different heights on the same pallet.
- Can strap at any height from 140mm above the ground.
- Long equipment life and low maintenance.
- Protection and security systems.
- It can be integrated into an automatic line or work alone.
- Production of more than 60 pallets every hour.
- Operation light indicator.
- Automatically places the corner pieces on the pallet.
- Compact the load before strapping.
- Automatically detect pallet corners.

OPTIONS:

- High speed version.
- CRC technology for repositioning of corner pieces.
- Electronic tension control.
- VPN access to machine software.
- 5 corner arms version.

The control panel has been completely redesigned with a touch screen and a new, more intuitive interface.

The arc incorporates an LED indicator with different colors to show the status of the machine at all times.

GENERAL CHARACTERISTICS

REQUIRED VOLTAGE: 220/380 V · 50/60 Hz · 3 Phases

POWER: 2 Kw **PRODUCTION:** 1 pallet / min (5 straps)

MACHINE DIMENSIONS
3460 (W) x 3844 (L) x 4258 (H) mm

TECHNICAL SPECIFICATIONS

STRAP WIDTH: 11 - 12 mm

WELDING: Adjustable
Electrical heating.

STRAP THICKNESS: 0,5 - 0,7 mm

Edition 06/22 · The manufacturer reserves the right to make changes without prior notice.
