 - + Underfeed track customized for existing conveyor system
 - + Service locking device
-

OPTIONS

- + Light tower
 - + Air conditioning equipment
 - + Strap sealing unit BSG 4
-

PET STRAP BENEFITS VS STEEL

- + Protects the health and safety of your staff - no risk of injuries caused by the strapping
- + Easier & safer to handle
- + Closure without clamps
- + No damage to the packaged goods
- + No staining of the goods because of rust
- + Higher remaining strap tension

Steel straps provide less exfoliation in the event of a fire in facilities with inadequate fire suppression systems. It is the customer's responsibility to exercise due diligence with their Safety Officers and insurers when choosing which strap is appropriate for their facilities.
